

2. In light of the parties' acceptance of the mediator's proposal, the parties have reached a conditional settlement that resolves this case in its entirety. The proposed settlement is conditioned upon the approval by the relevant Los Angeles County boards, including the Contract Cities Liability Trust Fund and Board of Supervisors.

3. Due to a backlog, the settlement is still working its way through the County's approval process. It is expected that the matter will be on the Contract Cities Liability Trust Fund agenda within the next two months and will be placed on the Board of Supervisors' agenda for approval approximately 30 days later.

4. If the conditional settlement is approved, the plaintiffs will be filing a petition for approval of the compromise of the claims of the minor plaintiffs. The plaintiffs anticipate filing the minors' compromise within 45 days of the settlement's approval by the Board of Supervisors.
